

# GARMENT CARE TIPS

## DALMARD MARINE

You have just acquired a garment made with the utmost care by Dalmard Marine. We advise you to follow these garment care tips so that it lasts as long as possible.

### TO EACH MATERIAL ITS MAINTENANCE

#### You have just acquired a woolen cloth coat ?

- *Wool is a « living » material that requires you to let it rest from time to time.*
- *Hang your coat on a hanger. By car, lay it flat.*
- *Brush it regularly with a suitable brush.*
- *To consolidate its machine-sewn buttons, use linen thread for its flexibility and strength.*
- *Occasionally clean (twice a year) the collar and cuffs with a dry cloth and scarlet water.*
- *Never wash it in the washing machine.*
- *Deposit once every 3 years at the dry cleaners without re-waterproofing. If it's a duffle-coat, isolate the leather ties.*

You have just acquired a sweater, cardigan or scarf made of wool, a Breton shirt, jacket or scarf made of cotton ?

- Wash your garment at the machine with the delicate program.
- Dry it flat or on a hanger to maintain its original shape.
- Avoid the clothes dryer which damage clothes faster.
- Iron it with a soft iron.

## TO EACH STAIN ITS STAIN REMOVER

Your Dalmard Marine garment will forgive you all stains, as long as :

- you act quickly,
- you put under your clothes a clean and absorbent fabric,
- you never put hot water on a greasy stain,
- you use the stain remover adapted to the stain in question,
- you entrust your clothing to a specialist in case of doubt.
